

## Welcome to the Louisiana Level of Care Eligibility Tool (LOCET) Web Based Learning Page

Busy healthcare professionals are often faced with limited resources, time and money, challenges inherent in traditional, face-to-face classroom training methods. The OAAS recognizes these challenges and has developed a web based, LOCET Learning Page to deliver free information over the internet to nursing facility and hospital discharge planners involved with collecting and communicating LOCET information during the nursing home admissions process.

---

**The purpose of the LOCET Learning Resource Page is to promote knowledge and build skills by connecting people to the information and resources they need, when they need them.**

---

### Audiences

The **intended audiences** or end users for this resource include:
